The elevation of the **1000** above sea level is **1000** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this well to a depth sufficient to test the Dakota Sandstone Formation, and estimate such depth to be 2500 ft. 7 in. surface casing will be cemented at approximately 100 ft., extending to top of ground with 30 sacks of cement. We will drill a 6 1/2" hole through said Dakota Formation, or sufficient-ly in the sand to adequately test it. We will run electric logs. If production casing is necessary we intend to cement a 1 1/2 inch, 9.5 pound, casing through the producing horizon and perforate. Safety tests will be used.

This test is planned primarily to explore the oil possibilities of the Gallup Sandstone Formation and the Dakota Formation.

ILLEGIBLE

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Well Location and Acreage Dedication Plat

Section A.

Date May 14, 1959

Operator Scott Bros. Drilling Company Lease Magnolia-Nava jo
Well No. 1 Unit Letter Section 20 Township 28 North Range 16 West NMPM
Located 330 Feet From North Line, 330 Feet From West Line
County San Juan G. L. Elevation 5309 Dedicated Acreage NW 1/4 20 - 160 Acres
Name of Producing Formation Dakota Pool Wildcat

1. Is the Operator the only owner* in the dedicated acreage outlined on the plat below?
Yes X No .
2. If the answer to question one is "no," have the interests of all the owners been consolidated by communitization agreement or otherwise? Yes No . If answer is "yes,"
Type of Consolidation
3. If the answer to question two is "no," list all the owners and their respective interests below:

Owner

Land Description

Section. B

This is to certify that the information in Section A above is true and complete to the best of my knowledge and belief.

Scott Bros. Drilling Company
(Operator)
