July 22, 1959

Magnolia-Navajo
Well No. 4 is located 2310 ft. from [N] line and 330 ft. from [E] line of sec. 17
SE 1/4 of Sec. 27 of 28N 16W N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Wilcox San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the 6.1 ft. above sea level is 5261 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This well has reached a total depth of 1100', and in our opinion is barren of oil or gas production. Having received verbal clearance from the District Engineer we propose to abandon the hole and will plug it as follows:

Cement plug 1100' to 1250'
10 sacks of cement at surface with water

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company SCOTT BROS. DRILLING COMPANY

Address 308 Keweenaw Building
Albuquerque, New Mexico
