SANTA FE, NEW MEXICO

September 1, 1967

C Tenneco Oil Company  
P. O. Box 1714  
Durango, Colorado

O Attention: Mr. Les Plumb

Gentlemen:

P A recent check of our files fails to show evidence that Delhi-Taylor ever obtained dual completion authority for your Florance Well No. 30, located in Unit M of Section 1, Township 29 North, Range 8 West, San Juan County, New Mexico.

Y If dual completion authority has been given for this well, please advise this office of the order number. If no order has been issued, please so confirm and an order will be issued.

We also need to know whether the well is still equipped with 4 1/2-inch casing cemented at 7773 feet with 200 sacks, perforated at 4803-5339 feet in the Mesaverde and at 7402-7682 feet in the Dakota, and flowing through 2 3/8-inch tubing and through the 2 3/8-inch x 4 1/2-inch annulus with a packer at 7365.

Very truly yours,

DANIEL S. NUTTER  
Chief Engineer
