Interpretation of these data requires a number of cautions. First, the data are based on a single survey and may not be representative of the entire population. Second, the data are based on self-reported behavior and may be subject to recall bias. Third, the data are based on a cross-sectional design and may not capture changes in behavior over time. Finally, the data are based on a convenience sample and may not be representative of the entire population.

APPROVED BY _____
DATE _____

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.

of such operations when completed, as indicated, on Federal and on all lands in such State, pursuant to applicable State law and be submitted, particularly with regard to local, area, or regional Federal and/or State office.

described in accordance with Federal requirements, Consult local information as is required by local Federal and/or State offices, present productive zones, or other zones with present significant element plugs; mud or other material placed below, between and y left in the hole; method of closing top of well; and date well site
