13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On 8/23/1999 Amoco Production Company requested and received permission to recomplete the subject well to the Mesaverde and downhole commingle the existing Dakota production with the new Mesaverde completion. Amoco had recently drilled and completed a well in this section which adequately recovers the reserves in the Mesaverde formation, therefore, Amoco wishes to withdraw this application to recomplete to the Mesaverde and downhole commingle production with the Dakota. The well will remain a single Dakota producer.
