12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Conoco Inc. proposes to install a 2" nominal gas gathering line under the terms of their lease and the communitization agreement for this well. Gas will be metered through an existing meter on the State Com No. 3 location. Route of the pipeline is shown on the attached survey.

The proposed line will be constructed using 2", Schedule 80, 0.218" wall, API plain end line pipe. Depth of burial will be 36-48". The pipe will be joined by welding and will be externally coated and wrapped during installation. The maximum anticipated working pressure is 250 psig and the line will be tested to this working pressure prior to backfilling. The route will be clearly marked on the surface with "Caution - Call before digging" signs. Proposed route width is 30'. 20' on the traffic side of centerline and 10' on the ditch side of centerline.

The route has been surveyed for cultural resources and the results of this survey will be sent to the State Historic Preservation Officer.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
