(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Conoco Inc. proposes to flare additional gas volumes from the subject well for clean up purposes. The nitrogen content remains above contract minimums and Conoco proposes to flare the gas from this well to lower the nitrogen level to an acceptable point. Nitrogen content will be monitored by periodic chromatographic analysis. The well will be shut in as soon as the nitrogen content drops to an acceptable level.

Anticipated daily volume of gas flared is 80 MCFD.

This work is necessary to produce this well. Without this work the well will remain shut in indefinitely.

THIS APPROVAL EXPIRES 5/9/91

14. I hereby certify that the foregoing is true and correct

Signed G. E. Filde Title Agent of Conoco Inc. Date April 4, 1991
