Gentlemen:

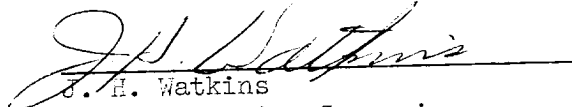

Re: Florance No. 25  
SF 080246

Attached is Form C-104, Request for Gas Allowable, covering Florance No. 25, in Blanco Mesaverde field. This well was recently repaired by cementing the old shot hole and re-drilling to total depth of 4733 feet, running 4-1/2-inch casing from surface to T.D., perforating and sand fracing the Mesaverde section.

The repair was completed October 23, 1964, and is being re-connected this date by Southern Union Gathering Company for the first day of conditioning period for new deliverability test.

Yours very truly,

TENNECO OIL COMPANY

  
J. H. Watkins
