Attention: Roderick M. Pinkett,
Petroleum Engineer

Administrative Order NSL-2669

Dear Mr. Pinkett:

Reference is made to your application of April 14, 1989 for a non-standard coal gas well location for your A.B. Geren Well No. 1 to be located 475 feet from the South line and 1060 feet from the West line (Unit M) of Section 21, Township 29 North, Range 9 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. The W/2 of said Section 21 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay
Director

Mr. Michale Stogner
New Mexico Oil Conservation Commission
P.O. Box 2088
Santa Fe, New Mexico 87501

Dear Mr. Stogner:

This is a request for administrative approval for an unorthodox gas well location in the Basin Fruitland Pool.

It is intended to locate the D.J. Simmons Company's A. B. Geren # 1 at 475' from the South line and 1060' from the West line of Section 21-T29N-R9W, San Juan County, New Mexico.

The existence of Largo Canyon in the orthodox window of Section 21 makes it impossible to build an orthodox location. This is shown on the accompanying topographical map. This location was suggested by the Bureau of Land Management.

Offsetting proration units are operated by Southern Union Exploration Co., Amoco, Meridian and Lively Exploration. All offset operators have been notified of this unorthodox location.

Plats showing the proposed well location and the terrain in Section 21, along with an ownership plat are attached.

Sincerely yours,

D.J.SIMMONS CO.

Roderick M. Pinkett
Petroleum Engineer
