LOG OF OIL OR GAS WELL

LOCATE WELL CORRECTLY

[illegible]

The information given herewith is a complete and correct record of the well and all work done thereon so far as can be determined from all available records.

Signed _____

Location of _____ of _____ Line and _____ ft. [E.] [W.] of _____ Line of _____ Sec. _____ T. _____ R. _____ S. _____ Meridian _____ Co. _____ State _____

Well No. _____

Owner or Operator _____

Company _____

Address _____ P.O. Box _____ State _____

The summary on this page is for the condition of the well at above date.

Commenced drilling	Finished drilling	1963	1964
1-1	8-25		

Date _____ Actual 8-1-64
 Title _____ Attorney-in-Fact

The well was spudded June 1, 1963 and drilled to a depth of 3075', at which depth 7" OD 23# J55 casing was set with 100 sacks cement. Previously, 9-5/8" OD 32-30# H 40 casing had been set at 120', with 80 sacks cement. The well was drilled from 3075' to 1.0' with air. A slight show of gas, too small to measure, was encountered between 4506' and 4506'. The cement formation was saturated with fresh water. 7-5/8" OD casing (2180') was pulled from the well on July 17, 1963; and the well was plugged and abandoned.
