RE: NEBU #7, <sup>A-</sup>~~BB~~-21-30N-7W

Dear Al:

As the enclosed copy of the 1993 Bradenhead Test on the referenced well indicates, the well was not tested in 1993 because the bradenhead valve could not be opened. According to our records, the well was also not tested during the last scheduled period in 1990. Mr. Decker stated he would replace and repair the valve and retest the well. He has apparently not done so. You are hereby directed to complete the test prior to January 1, 1994.

Yours truly,

A handwritten signature in cursive script, appearing to read "Charles Gholson".

Charles Gholson  
Deputy Oil & Gas Inspector
