17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Final budget & working interest partner approvals were obtained in February of this year for the plug & abandonment of this well. Northwest Pipeline plans to perform plugging operations with a workover rig.

To alleviate rig moving costs, the work will be performed when additional activity is needed for various casing or tubing repairs on other wells in the same area.

Currently we are looking at several projects during the middle to late summer months.
