(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.*

This well was originally scheduled to be plugged before March 24, 1988. Due to increased interest in Fruitland Coal recompletions, an adjacent well, the Simms Federal #3, is being prepared for recompletion. Partner approval is expected by June 1, 1988.

It is therefore requested that an extension be granted on the P&A order until the Simms Federal #3 is recompleted and evaluated. If no commercial potential is shown, both wells will be plugged in an expeditious manner.
