Farmington, New Mexico*

Gentlemen:

*On August 25, 1959 we notified you that your #2 New Mexico
Federal "I" Well in the NE¹/₄ Section 1-29N-14W was delinquent
an initial deliverability test.*

*A recent check of our records indicates that the test has never
been received and the well is still delinquent. Unless we
receive the test in the near future or some explanation for the
delinquency we will be forced to notify the pipeline company
to shut the well in until it is brought into compliance with
the Oil Commission rules and regulations.*

Yours very truly
