12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Texaco E. & P. Inc. requests approval to Temporarily Abandon the Dakota formation. Texaco recently additionally completed Keys Com #1 into the Gallup formation. Plans are to downhole commingle the Gallup with the existing Dakota formation. However, the pressure differential between the Gallup and Dakota prevent commingling at this time. It is recommended to Temporarily Abandon the Dakota and produce the well exclusively from the Gallup in an effort to reduce the pressure differential so that eventual commingling will be possible. The Dakota was Temporarily Abandoned by running a production string with a seating nipple and stop and with a packer set at 5716'(packer is located between the Gallup and Dakota). The Gallup interval will continue to produce until its pressure will allow commingling with the Dakota.
