Star Rt. 1, Box 840
Bloomfield, NM 87413

Re: GCU #2 K-35-29-12

Dear Mr. Hickam:

Regardless of who operates the referenced well, we will demand that the deeper portion be adequately plugged. Due to the well being left uncased for so long, I expect this may be difficult and expensive. I strongly recommend that you not assume responsibility for this well until it has been plugged back to the point at which you can run and cement casing.

Before assuming operation of the well you must have a plugging bond on file in our Santa Fe office. Then, submit form C-103 in triplicate to this office stating you are assuming responsibility for this well and plugging plans. After we approve your proposal you may commence work.

If you have any questions, please contact this office.

Sincerely,

Frank T. Chavez
District Supervisor
