It is of the greatest importance to have a complete history of the well. Please state in detail the dates of reworking, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was abandoned, or left in the well, state the date, size, position and depth. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or drilling of hole.
