Farmington, New Mexico

Re: Administrative Order TX-1
Tubing Requirement Exception
Paul Case Lechner Well No. 1

Dear Sir:

Reference is made to your letter of February 12, 1959, wherein you have requested administrative exception to Rule 107 (d)-2 for the Paul Case Lechner Well No. 1 located in the SE/4 NW/4 of Section 30, Township 29 North, Range 10 West, NMPM, San Juan County, New Mexico, to permit said well to be produced from the Fruitland formation through the 2 7/8" O. D. production casing string.

Inasmuch as the Fruitland formation is at present producing very little water and adequate flow characteristics should be attainable through the casing, the requested exception is hereby granted subject to the provisions that if, at any time that the producing characteristics of the subject well should change so that a small diameter tubing for the well may be indicated, this approval may be rescinded.

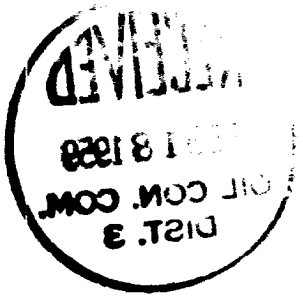

Very truly yours,

A. L. PORTER, Jr.,
Secretary-Director

Mr. J. B. Dyer,
1000 North 1st Street,
Albuquerque, New Mexico

Dear Mr. Dyer:
I am sorry to hear
that your company is having

trouble with your well. I am sorry to hear that you have received a letter from the State Oil Conservation Commission stating that your well is not in compliance with the provisions of the Act. I am sure that you will be able to get the well back in compliance with the provisions of the Act.

As the State Oil Conservation Commission is not a federal agency, it is not subject to the provisions of the Federal Oil Conservation Act. However, the State Oil Conservation Commission is a state agency and is subject to the provisions of the State Oil Conservation Act. I am sure that you will be able to get the well back in compliance with the provisions of the State Oil Conservation Act.

Sincerely,
J. B. Dyer

Very truly yours,
J. B. Dyer
