Gentlemen:

Oil Conservation Commission Rules and Regulations require that Initial Deliverability tests be filed on wells within 45 days after connection to pipeline facilities.

We find that your company has not complied with this on the following well:

Paul Case #1 Valdes, K-24-29N-11W

Failure to test this well will result in necessity of shutting it off production unless substantial reason can be shown why the test was not run. Will you please give this matter your early consideration.

Yours very truly

Emery C. Arnold
Supervisor, District #3
