

NEW MEXICO OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Locke-Taylor Drilling Co. John Graham Pooled Unit Well No. **1** in **NW 1/4 SE 1/4**
Company or Operator
of Sec. **22**, T. **29N**, R. **13W**, N. M. P. M., **West Kats Canyon** Field.
San Juan County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Well was drilled to T.D. 1172'. No gas was encountered in the Pictured Cliffs sand, topped at around 1100'. Salt water was found in the bottom 2' of the Pictured Cliffs. We now propose to plug back to 960', cementing the Pictured Cliffs sand and back through the coal at around 1090', pull out the 7" casing and cement 5 1/2" casing on top of the Fruitland, which showed 120 MCF of gas from 900' - 960'; shoot approximately 60' with approximately 3 qts. to the foot of solidified nitro-glycerin, clean out and complete as a gas well. All cementing will be done by Halliburton

Approved **JUN 11 1952**, 19____
except at follows:
