Pool

Dear Mr. Kendall:

Monthly production reports are required for each producible well after connection is made. This report is made on our Operator's Monthly Report, Form C-115, enclosed. The marked copy identifies the required information.

The volume to be used may be estimated each month in thousand cubic feet (MCF). The reported volumes "produced" and "sold" should be the equal. I suggest the initials "DLK" be used to abbreviate the name of the purchaser.

This report is required to be filed each month and postmarked on or before the 24th day of the month following the month reported. If the production is zero, so state.

If questions arise, please call us.

Yours very truly

ARK:ks
