Mr. Dave Vilven,
Chief Division Engineer
El Paso Natural Gas Company
P.O. Box 990
Farmington, NM 87401

RE: Kendall & Associates, Inc.
Seitzinger No. 1
Unit H, Sec. 23-T29N-R11W
San Juan County, NM

Dear Mr. Vilven:

This is a request on behalf of Kendall & Associates, Inc. for a temporary gas connection for the above-referred-to well.

It is requested that El Paso Natural Gas Company provide a gas connection to the gathering system and a drill gas separation and metering unit at the junction of the following location.

Roy L. Cook
Davie No. 1
SE/4, NE/4 Sec. 23-T29N-R11W

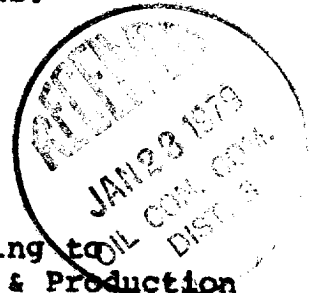

The Operator will provide a line to run from the above-referred-to well to the drill gas unit.

The purpose of this request is to allow the Operator to produce the gas from this well, with or without compression, into a gathering system to determine the producing capacity of the well. The purpose is, also, to prevent the waste of gas by venting to atmosphere under other test conditions.

The address for the Operator is as follows:

Kendall & Associates, Inc.
719 W. Apache
Farmington, New Mexico 87401

However, please send all correspondence relating to this matter to the Operator, c/o Walsh Engineering & Production
