*Re: Burger Drilling Co. #3 Hare
G-23-29N-11W*

Gentlemen:

The above well was drilled in 1959 and Burger Drilling Company assumed operation in February, 1960. No production has been reported from this well in the last year and we presume that it has ceased producing. We are, therefore, directing that it be plugged and abandoned in accordance with New Mexico Oil Conservation Commission rules and regulations. Form C-102 should be submitted for approval prior to commencing operations.

If some action is not instituted within the next 30 days it is our intention to set the matter for hearing before the Oil Conservation Commission in order that the operator and the bonding company may show cause why the well should not be plugged and abandoned.

Yours very truly

ECA:ks
