Albuquerque, New Mexico

Dear Sir:

A field inspection has been performed concerning the re-plugging of your Wood #1 well in Section 14-29N-11W. The plug appears to be satisfactory.

We have not received forms C-103 showing the subsequent report of the re-plugging operations.

The plugging bond may be released when such forms C-103 have been approved. Forms C-103 are enclosed for your convenience.

Yours very truly

A. R. Kendrick
Engineer, District #3

Oil Conservation Commission
Santa Fe, New Mexico

Dear Mr. Kendrick,

In reference to your letter of March 10, 1959 Wood #1 SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 14-29N-11W San Juan County, New Mexico. The Wood #1 has been replugged by the Graystone Drilling Company of Dallas, Texas. Mr. Wood, the land owner, I believe has cleaned up the location.

I would very much appreciate hearing from you regarding these matters so we can follow through with the release of the plugging bond.

Mr. Wood called me sometime ago and was very unhappy with the situation because the riser above the ground was interfering with his plans for tilling and planting the field. Mr. Wood has been very nice through all this and I would like to accommodate his request if possible.

Yours very truly,
Sierra Del Oro, Inc.

Walter A. Martin, President
