Dear Sir:

On August 25, 1959 we notified you that your #1-X Salmon well in Section 15-29N-11W was delinquent an initial deliverability test.

Your reply of August 27, 1959 indicated that the test was to be filed by Mr. Virgil Stoebe in Farmington. A recent check of our records reveals that the test has never been received and the well is still delinquent. Unless we receive the test in the near future we will be forced to notify the pipeline company to shut the well until it is brought into compliance with Oil Commission rules and regulations.

Yours very truly
