

Memo

From

8/21/87

To Jeff Taylor:

CHARLES GHOLSON
Deputy Inspector

In regard to the Big A Well Service - Culpepper #1 matter. I told Mr. Ron Fellenbaum with Big A that we had no idea what downhole conditions would be. I also informed him that the landowner had told Mr. Ernie Busch that he had thrown boulders in the hole and that he could expect to encounter junk (metal, timbers etc.) When I was informed that Big A had received the contract for a total of \$8,000 to plug both the Culpepper #1 and the Bergin #2, I told Mr. Fellenbaum that they would probably lose money on the contract.

J WARREN MILLER
CULPEPPER #1
