Re: Southwest Production Company's Foutz
State No. 1 well, Section 16, T-29-N,
R-14-W, Cha Cha-Gallup Pool, San Juan
County, New Mexico

Dear Mr. Porter:

Application for Administrative Approval of a non-standard oil proration unit is being made for the above well consisting of 73.89 acres which includes (Lot 1, 33.89 acres) NW/4 of SE/4 lying north of the mid-channel of the San Juan River, and all of the NE/4 of the SE/4.

By Order R-2030 two proration units were established, one unit consisting of the west 56.625 acres dedicated at present to the above well, and one unit consisting of the east 56.625 acres of that portion of the SE/4 of Section 16, Township 29 North, Range 14 West, N.M.P.M., San Juan County, New Mexico, lying north of the mid-channel of the San Juan River. However, under the present economic circumstances and rising Gas-Oil Ratios we feel that another well on the east 56.625 acre unit would be uneconomical and ask that we be allowed to re-dedicate the acreage above described to the present well.

We have re-treated this well with 60,000# of sand and expect an increase in production.

Copies of this application are being furnished to all offset operators.

Very truly yours,

Joseph P. Driscoll
