Attn: Mr. Wayne Smith

Dear Sir:

Enclosed is the initial and annual test on Union Texas Petroleum Corporation - New Mexico State "A" Well No. 1.

Due to the time element from connection to submitting the test to the Commission (60 days) we are submitting this test based on information from the orifice chart. We have not received the deliverability data from El Paso Natural Gas Co. to this date. I do not have the connection date of the well but I am sure the 60 day period is close to expiring.

Yours very truly,

L. W. McGlothlin
