LOG OF OIL OR GAS WELL

The image shows a document page with a grid-like structure, likely a ledger or a form. The page is mostly blank, with faint horizontal lines and some dark, illegible markings near the top right corner. The overall quality is poor, with high contrast and significant noise.

The information given herein is a complete and correct record of the roll and all work done thereon.

Investigation of the roll and all work done thereon.

Continued drilling - 7-10
Finished drilling - 7-10

The company has begun the construction of a new gas well at our base.

Daily production - 100 bbls/day

This is a very good report.

SENOE K. O. EDNAE PAD WL JIO

Rotary tools started from surface of the road and drilled a 8 3/4" hole to 1917 feet. Then the hole was reamed to 6" and drilled to 2010. 5 1/2" pipe was set and rotary rig moved off on 12/8/54. On 12/16/54 cable tool rig moved on and cleaned out to 2003. On 12/19/54 200 gals of SMO were run from 2003' to 1922'. Gravel piling on top to 1920', cut seal piling and gravel drilled out and well cleaned out. It siphon line landed at 2000'

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. Have there been any changes made in the casing, state fully, and if any casing was "backtracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
