Re: Basin Dakota Pool, El Paso
Connection, Pubco Petroleum
Federal 9N9-29-12

Dear Fred:

The operator of subject well advises that El Paso reported an erroneous volume in June, 1961. The amount of error was 3368 MCF,

The statement for August production showed a correction for that amount. The operator's Form C-115 for August reflects the adjustment.

The gas proration schedule does not reflect the adjustment. Please check your records to see if the adjustment has been entered. If not, please advise the proper person to cause the matter to be corrected during this proration period.

If we can be of assistance, please advise.

Yours very truly

A. R. Kendrick
Engineer, District #3
