DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Refer to Notice of Intention to Drill, same location as above, dated 1-16-62. We propose to change our original plans as follows: Set and cement approximately 4500' of 9 5/8" O.D. intermediate casing instead of 8 5/8" casing as originally reported, and set and cement a 7" O.D. liner from approximately 4500' to 6600' instead of 5 1/2" liner as originally reported. The changes in size of intermediate casing and liner are the only changes in plans from the original intention.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
