13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The subject well will be shut-in effective October 1, 1996.

The pump has been experiencing an inordinate amount of downtime due to mechanical problems. In addition, the pump is fueled by propane which Harken has filled repeatedly due to the fact the propane tank is continually being emptied by a third party. Therefore, with the impending onset of winter weather the well will be SI until the Spring of '97 and the pump sent for repair.
