Farmington, New Mexico

Re: El Paso Natural Gas Co.
Oswell #1
K-3-29N-11W

Dear Mr. Dawson:

I recently stopped by the subject well and opened the casing valves slightly. There is gas on both casing strings.

Please contact Mr. Charles Gholson of this office and arrange for a witnessed Bradenhead Test.

Other wells nearby have the Bradenhead valves open without any apparent flow.

If there are questions please contact us.

Yours very truly,

A. R. Kendrick
Supervisor, District #3

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

A second approval is requested to retain this well in its present temporarily abandoned status. It is being evaluated as a possible rework in the Pictured Cliffs formation. The most recent bradenhead test indicates there has been no change in the well's condition since it was shut-in. Periodic visits to the wellsite to check the bradenhead and surface equipment will be made until either the well is reworked or permanently plugged and abandoned.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
