(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.) *

Pulled 2 7/8" tubing. Set CIBP at 7500' with 15' cement on top. Attempted to pull 7" casing, but unable to pull free. Shot casing off at 6792', 6192 and 5801'. Unable to pull casing free. Casing stuck at between 3800-4100', 8 5/8" casing appears to be collapsed against 7" casing. Will leave 7" casing in place. Ran 2 7/8" tubing in hole and installed wellhead. PBTD 4325'. Well shut in. Plan to production test shallower zones within the near future.
