> Re: Pubco #18 Well Revised Workover

7-2-31-8

Dear Mr. Cohen:

I am enclosing a letter from New Mexico Oil Conservation Commission dated December 20, 1963, in connection with required work over of the subject and other wells.

We do not believe that Mr. Mizel's portion of the cost of the Workover is excessive (\$281.00 under Proposal #1 and \$1,266.00 under Proposal #2). In view of the fact that all other Working Interest owners have approved the Workover program, it would be appreciated if you would review this situation with Mr. Misel and advise us prior to the January 10 date set out in Mr. Arnold's letter whether or not Mr. Mizel will join in the Workover required by the Commission.

Yours very truly,

Original Signed By Gilbert J. Sevier, Jr.
