(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

On November 25, 1996, Amoco Production Company requested permission to recomplate the subject well from the Pictured Cliffs to the Fuitland Sand North Extension. Approval was granted on November 27, 1996. The recompletion of the well was never performed As a result of a recent review it has been determined that recompletion into the Fruitland Sand is not economic and we see no future potential in this wellbore, therefore, plugging and abandonment procedures are being reviewed and will be submitted to your office upon completion.
