

November 22, 1960

W. A. Moncrief, Jr
Petroleum Building
Ninth at Commerce
Fort Worth, Texas

Attn: Veta Weatherby

Dear Miss Weatherby:

We have received your inquiry of November 9, 1960 regarding your #1 Julander well in Section 31, Township 29N, Range 11 W.

Our records indicate that this well was completed in the Dakota formation and Forms G-104 and G-110 were approved on September 25, 1960. At the present time the Dakota production is not prorated and therefore allowables are not assigned. As of this date we have not received a connection notice from the pipeline company and therefore presume the well is not connected. The matter of securing a gas connection is of course not controlled by this office. Your gas takes from this well until proration is instituted on February 1, 1961 will be controlled by your contractual arrangements with the gas purchaser.

We are sending your name and address to our Santa Fe office so you will be placed on the mailing list for gas proration schedules.

If we can be of any further service, please contact us.

Yours very truly

Emery C. Arnold
Supervisor, District #3

EJA:ks
