13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Harken Southwest (HSW) is currently exploring the possibilities of utilizing windmills in the Rattlesnake area to reduce Lease Operating Expense.

This is the last possible endeavor to make this area economically sound for commercial production. Therefore, HSW respectfully request and extension of the current SI status until the Spring of '97 (NOTE: Due to the small pump size and amount of fresh water, this field is not productive during the winter months).
