Dear Denny:

The form C-101, Application to Drill, for the subject well was approved April 16, 1979.

Form C-102 indicates the dedicated acreage is not yet communitized.

We cannot assign an allowable until the communitization is completed and revised forms C-102 are received here in duplicate.

There will be no delay in the drilling of the well for this reason.

If there are questions, please call.

Yours very truly,

A. R. Kendrick
District Supervisor
