Dear Sir:

A recent check of our records indicates that your Company is delinquent on filing forms on your #2 R. Bruce Sullivan well in Section 30-29N-10W. Miscellaneous Notices filed indicate that casing was run and the well was sand-water fractured.

Will you please file a Well Record on this well indicating whether or not production was obtained. If the well was not a producing well we would also like to determine your intentions in regard to plugging and abandoning this well.

Yours very truly
