(Meridian)

Basin Dakota

San Juan  
(County or Subdivision)

New Mexico  
(State or Territory)

The elevation of the derrick floor above sea level is 6500 ft.

**DETAILS OF WORK**

(State names of sand sections, depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

This Dakota Zone has been incapable of production since it was completed 8-25-59. Notice of intention is hereby given to temporarily abandon the Dakota zone of the Mesa Verde-Dakota dual completion. An annual packer leakage test will continue to be conducted.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
