Attn: Mr. H. F. Gunz, Manager of Lands & Exploration

Dear Mr. Gunz:

We have your letters of February 25 and March 17, 1965 relating to remedial work to be conducted on your #49 Rosa Unit in Section 27-31N-4W.

We realize that the roads are somewhat impassable in that area at this time. However, normally the area dries out enough by May 1, each year to allow the movement of equipment without difficulty. We are, therefore, granting an extension of time to May 1, 1965 to make final decision and to comply with our original request.

In the event no action has been taken by May 1 we will proceed as originally outlined.

Yours very truly
