Gentlemen:

A Notice of Intention to Drill for the above well was received on November 12, 1965. We have never received any further information as to whether the well was spudded and drilled or as to what the present status is.

We are enclosing a book of Rules and Regulations and a supply of Form C-103 and C-105. Please file these forms as required by our rules and we will advise you what further action should be taken.

Yours very truly
