☐ Casing Repair
☐ Altering Casing
☐ Other

- ☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This Sundry Notice is in response to your letter dated August 22, 1995.

The separator on this well has been inoperable, with repairs uneconomic due to current gas prices and exorbitant Williams Field Services gathering rates. We shut the well in to explore other possible pipeline options in the area. While we have not made any decision with regard to a possible change in pipelines, we have had equipment become available to produce the well. We plan to have the equipment in place and begin producing the well in September. The well is in a remote location which makes winter time production difficult.
