FARMINGTON RESOURCE AREA

OIL CON. DIV.
DIST. 3

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

When drilled and cased in 1981, the second stage of a two stage cement job was pumped through the DV stage tool @ 6158'. Good circulation was held throughout the job, and the plug was down and bumped on the DV tool @ 10:00 a.m. 7/15/81.

The above well thus is plugged with cement @ the DV tool. TA status is requested and was approved verbally by Ken Townsend on 9/13/83. The plug and DV tool will be drilled out and a CBL run when a completion is attempted in 1984.
