12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.				
Plans are to add the MV to this well and commingle MV/DK. We would like to commingle per DHC Order 11363. The Dakota forecast is as follows (mcf/month):				
1st month - 5173				
Production will be reported using the subtraction method for 12 months and then we will convert to the ratio method for the life of the well. The Mesaverde perfs will be between 5440' - 6000' and the pore pressure is 1200 psi. The Dakota perfs are between 7890' - 7914' and the pore pressure is 1550 psi. The original reference case where partner notification was made was R-11188. The BLM will also receive a copy of this DHC application.				
I hereby certify that the information above is true and complete to the best of my knowledge and belief.
