The apparent reason that Northwest did not know the proper pool name for these wells must have been the lack of Forms C-104.

Mr. Stogner:

The subject well was drilled in 1988 prior to the implementation of the current "Basin Fruitland Pool", rules (Order No. 8768), requiring wells to be staked in the NE and SW quarters.

Northwest Pipeline will require unorthodox location approved at this well.

Sincerely,

I will therefore hold this application until such time as a request for administrative approval on this well's location is filed.

If you should have any questions concerning this matter, please contact me.

Sincerely,

Michael E. Stogner
