Re: Unorthodox Location - Rosa Unit #221

Dear Mr. LeMay:

Northwest Pipeline requests permission to drill a Fruitland well on an unorthodox location due to the original survey of Sec. 18, T31N, R5W. The W/2 of Sec. 13 is approximately 1200' wide making it impossible to maintain the 790' offsets required in the new Fruitland Pool Rules. In addition, an archaeological conflict exists immediately south of the proposed location, preventing the movement from the north line another 160'. Northwest Pipeline is the only operator in the Rosa Unit thus no notification of offset operators is being done.

Attached is a plat and topo map.

Sincerely,

Mike J. Turnbaugh
