Attention: Mike Turnbaugh
Senior Engineer

Administrative Order NSP-1563(L)

Dear Mr. Turnbaugh:

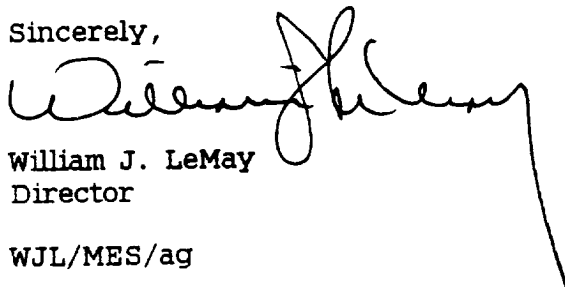

Reference is made to your applications of November 11, 1988 and December 6, 1988 for a 232.43-acre non-standard gas proration unit consisting of the following acreage in the Basin-Fruitland Coal (Gas) Pool:

RIO ARRIBA COUNTY, NEW MEXICO
TOWNSHIP 31 NORTH, RANGE 5 WEST, NMPM
Section 19: Lots 3 and 4 and the SE/4

It is my understanding that this unit is to be dedicated to your Rosa Unit Well No. 219 to be drilled at an unorthodox coal gas well location 1315 feet from the South line and 1020 feet from the West line (Unit N) of said Section 19, hereby approved under provisions of Rule 8 of the Special Rules and Regulations for this pool as promulgated by Division Order No. R-8768.

Also, by authority granted me under the provisions of Rule 6 of said Order No. R-8768, the above non-standard gas proration unit is hereby approved.

Sincerely,

William J. LeMay
Director

Re: Unorthodox Location - Rosa Unit #219

Dear Mr. LeMay:

Northwest Pipeline requests permission to drill a Fruitland well on an unorthodox location due to the original survey of Sec. 19, T31N, R5W. The W/2 of Sec. 19 is only $\pm 1200'$ wide making it impossible to maintain the 790' offsets required in the new Fruitland Pool Rules.

Northwest Pipeline is the only operator in the Rosa Unit thus no notification of offset operators is being done.

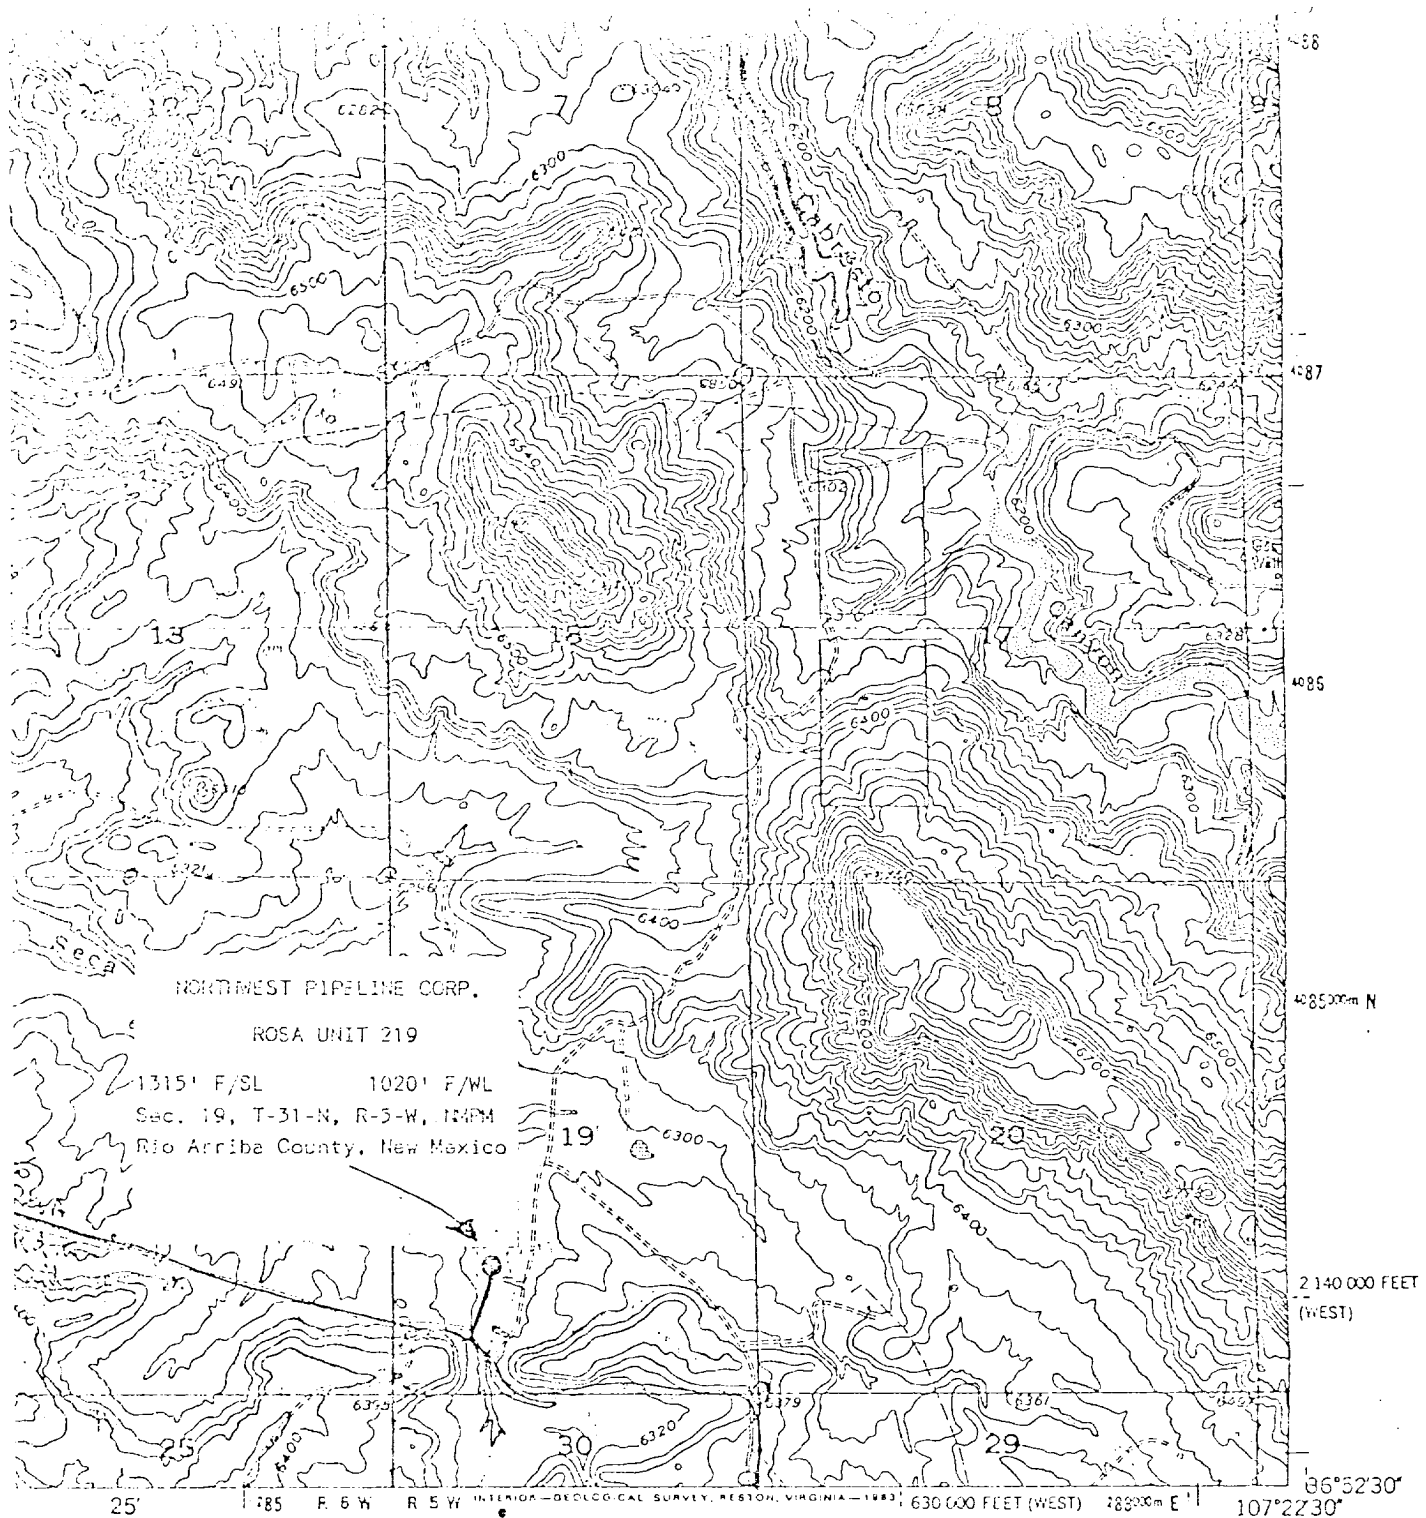

Attached is a plat and topo map.

Sincerely,

Mike J. Turnbaugh
Sr. Engineer
