Re: Amended Application for Non-Standard Location

Parker & Parsley Petroleum Company (Formerly operated by Evergreen Operating Corporation)

Rosa Unit #296

1190' FNL 670' FWL, Section 12-T31N-R4W

Basin Fruitland Coal Gas Pool

Rio Arriba County, New Mexico

Gentlemen:

We, on behalf of Parker & Parsley Petroleum Company, hereby make application for approval of the location of the Rosa Unit #296 well to be located 1190' FNL 670' FWL of Section 12, Township 31 North, Range 4 West, Basin Fruitland Coal Gas Pool, Rio Arriba County, New Mexico.

The reason for the non-standard location is due to topographical conditions and at the request of the U.S. Forest Service to avoid further damage to the environment and wildlife habitat.

The location was forced further west by archaeological findings.

The attached exhibits show the situation at the location and surrounding area.

Due to the further displacement of the well, we hope to intentionally deviate the well to within a location window in the northwest quarter of Section 12. (See application for intentional deviation.)

All offset operators and lease owners are being notified by certified mail, FAX, or hand delivery. The Return Certified Mail Receipt Cards will be provided when they are returned.

It is my belief that the information contained in this application is true and correct according to the information available to me.

If further information is needed, please contact me.

Yours very truly,

A. R. Kendrick

WELL LOCATION AND ACREAGE DEDICATION PLAT

All Distinctions must be from the outer boundaries of the section

Operator Parker & Parsley Petroleum Company			Lease Rosa Unit		Well No. 296
Unit Letter D	Section 12	Township 31 North	Range 4 West	County Rio Arriba	
Actual Footage Location of Well: 1190 feet from the North line and 670 feet from the West line					
Ground level Elev. 7000	Producing Formation Fruitland Coal		Pool Basin Fruitland Coal		Dedicated Acreage: 320 Acres

- Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (such as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?
☐ Yes ☐ No If answer is "yes" type of consolidation _____
If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary).
No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.

"ON-SITE" FIELD INSPECTION

Parker & Parsley Petroleum Company
Rosa Unit #296
1190' FNL 670' FWL, Section 12-T31N-R4W
Basin Fruitland Coal Gas Pool
Rio Arriba County, New Mexico

During our supervised On-site Inspection, we found the following to exist:

- ◇ The location is within the Carson National Forest.
- ◇ The location was staked according to the instructions we had received earlier from the U.S. Forest Service with respect to avoid unnecessary road construction, excessive cuts and fills, excessive timber removal, and other ecological damage.
- ◇ The location utilizes the same access road and is adjacent to the location of the existing Rosa Unit #86 well to avoid creating additional aesthetic and environmental damage.
- ◇ The location does not crowd any drill tract inside or outside of Section 12.
- ◇ A well pad at any standard location in the southwest quarter of Section 12 would be in a timbered portion of the forest and cannot avoid excessive ecological damage.
- ◇ The location was moved from the previously requested location of 1030' FNL 900' FWL due to an archaeological site on or near the location.
